CORONAVIRUS AND GDPR

Protecting personal data during the Coronavirus crisis

ASSESS

Carry out a DPIA to identify key risks of processing data away from the office and how you can mitigate those risks across the business

UNDERSTAND

Make sure you understand what are appropriate processing activities when working from home and that all personal data is protected.

DOCUMENT

Document everything you do to ensure you can demonstrate you're compliant. Get agreements in place with employees

GDPR

PROTECT

Health related data is special category data and is therefore protected by strict rules. Understand those rules, keep Coronvirus information limited and secure
